

Welcome back to Resorts World Genting. We've introduced additional safety measures for our shows & events to keep everyone healthy and looked after.

Here's what to expect during your next visit:

ENTERTAINMENT

Upon arrival, guests are required to check-in with the MySejahtera app. Those unable to scan will be asked to fill in their details within the Contact Tracing Log Book.

Mandatory bag checks and temperature screenings will also be conducted upon entry. Those displaying readings above 37.5 degrees Celsius or showing any related symptoms will be refused entry and directed to medical care immediately.

In the spirit of social distancing, guests are required to sit and remain in their designated seats. We encourage guests to maintain personal hygiene by utilizing the hand sanitizers available and keeping their masks on at all times.

Social distancing will be practised throughout the venue, whether upon arrival, in queue or, during exit.

Should attendees display any flu symptoms, please reach out to on-ground personnel for assistance.

Customers aged 12 years old and below or above 60 years old are highly discouraged from attending the event.

For privacy and confidentiality purposes, authorized personnel will be given the right to process and use personal data (including the medical records) of guests in accordance with the approved processes and procedures.

GENM Group shall maintain and keep such personal data for a period that is determined by the relevant authorities or for such period and purpose which the Management may reasonably deem fit.

With these newly implemented Standard of Procedures (SOPs), the process of entering and exiting the venue may take longer. Please be patient, as this will help ensure everyone's safety during the show.
